
LAB ASSIGNMENT 2

Exercise 1

Use the given add_user.html and edit it according to the comments so that it looks identical to the following fig. 1. It should be able to fill as fig. 2. Then the submit button press should direct to another page (Use an external php file to obtain the image given by fig. 3). Study the provided HTML file and the php file so the final result looks like the one shown below fig. 3. **(Score: 1 mark)**

***Bonus point:** If the user input incorrect user and password, it should direct to a page as fig. 5, remember that the "back" button appears after the 30 seconds counting text.

The screenshot displays a web application titled "CSS326 LABORATORY SYSTEM". On the left is a sidebar with four orange buttons: "User Profile", "Add User", "User Group", and "Add User Group". The main content area is divided into two sections. The "User Profile" section contains a "Title" dropdown menu (set to "Mr."), text input fields for "First name" and "Last name", a "Gender" section with radio buttons for "Male" (selected) and "Female", and an "Email" text input field. The "Account Profile" section contains text input fields for "Username", "Password", and "*Confirm password", a "User group" dropdown menu (set to "Instructor"), and a "*Remeber your password" checkbox. A "Submit" button is located at the bottom right of the form area. At the very bottom of the page, a footer note states: "Theme adapted from <http://bug.5digits.org/pentadactyl/index>".
